INDEX TO VOLUME XII

The asterisk (*) preceding the page number indicates an original article in this Journal. The letter T preceding the page number indicates a paper reported in the Transactions of the American Association of Neuropathologists. The letter D preceding the page number indicates a discussion of an original article or some other item published in this Journal. Subject entries are made for all articles. Author entries are made for original articles and Society Transactions.

ADAMS, Raymond. D., see Vander Eecken, Henry, M., *132; D291
Adenoma, hypophysealchromophobe, glioma associated with, *224
Alcoholic, acute, intoxication, on the blood-brain barrier, effect of, *368
Alpers, B. J., T88
American Association of Neuropathologists, annual meeting, Atlantic City, N. J., T88
Anatomy and functional significance of the meningeal arterial anastomoses of the human brain, *132
Angiitis, hyperergic, cerebral hemorrhage, in, *24
Aronson, Stanley M., Rhoda Benham, and Abner Wolf, madurомycosis of the central nervous system, *158
, and Gregory Shwartzman, skeletal muscle lesions in cortisone enhanced poliomyelitis, T94
Artifacts in the histochemical localization of alkaline phosphatase and other enzymes, T93
Alexander, Leo, see Ashbel, Rivka, *293
Ashbel, Rivka, Leo Alexander, and Naomi Raskin, histochemical studies of active carbonyl groups (proteolipids) in brains with multiple sclerosis, *293
Ashe, S. M. P., see Dobos, E. I., *232
Atrophy of cerebellum following pressure. A study with silver carbonate, *11

BACHS, Agustin, and A. Earl Walker, experimental hydrocephalus, *283, D 291
Bacitracin, intracisternal injection in dogs, of, *73
Barrera, Elizabeth, see Klüver, Heinrich, *400
Benham, Rhoda, see Aronson, Stanley M., *158
Berntsen, Carl A., Jr., and Lewis D. Stevenson, human rabies, a case report with necropsy studies wherein brain and salivary gland yielded virus: notes on the viral tissue distribution, *169
Blood-brain barrier, effect of acute alcoholic intoxication, on the, *368
Boldrey, E. B., see Wise, B. L., *224
Bone marrow and eosinophils, encephalopathy produced by extracts of, *349
Book reviews, 105, 203, 204, 404, 405, 406
Braverman, Irwin M., neurological actions caused by the mutant gene "trembler" in the house mouse (mus musculus, L.): an investigation, *64
Brain, and salivary gland yielded virus, a case report with necropsy studies, *169
Brain, esterases and phosphatases, of the, *387

CARBONYL groups (proteolipids) active, histochemical studies of, in brains with multiple sclerosis, *293
Carcinoma, primary of the pituitary, *205
Cares, Reuben M., see Globus, Joseph H., *311
Cells and fibers in the nervous system, method for the combined staining of, *400
Cerebellum, atrophy of, following pressure, *11
Cerebrospinal fluid, effects of convulsions induced by various types of electric stimulation, upon the, *363
Cerebral hemorrhage in hyperergic angiitis, *24
Cerebral hemorrhage, massive: spontaneous and experimentally induced, *107
Cerebral microembolism, effect of, on the perivascular neuroglia, *57
Chessick, R. D., see Gomori, G., *387
Christensen, Erna, and Lara, D. E., intracranial sarcoma, *41
Coaretation of the walls of the lateral angles of the lateral cerebral ventricles: a comparative anatomical study, *302
Cone, William, D92
Convulsions induced by various types of electric stimulation upon the cerebrospinal fluid, effects of, *363
Convulsive procedures, various, effect of, on the cranial vessels of the dog angiographically visualized, *277
Cortical and subcortical electrical activity in experimental seizures induced by metrazol, *262
Cortone acetate treatment, experimental allergic encephalomyelitis, following, *373
Cowen, David, see Teng, P., *73
Cranial vessels of the dog angiographically visualized, effect of various convulsive procedures, on the, *277
Crimbring, E. Beyer, a myelin sheath stain for paraffin or celloidin sections, *201

DAVIDOFF, Leo M., see Feiring, Emanuel H., *205
Dell, Michelle, see Starzl, T. E., *262
Denny-Brown, Derek E., D94
Dobos, E. I., Charles G. Freed, and S. M. P. Ashe, an intrinsic tumor of the third ventricle, *232
Dogs, intracisternal injection of bacitracin, in, *73

EFFECT of acute alcoholic intoxication on the blood-brain barrier, *368
Effect of cerebral microembolism on the perivascular neuroglia, *57
Effects of convulsions induced by various types of electric stimulation upon the cerebrospinal fluid, *363
Effect of various convulsive procedures on the cranial vessels of the dog angiographically visualized, *277
Electric stimulation upon the cerebrospinal fluid, effects of convulsions induced by various types of, *363
Encephalitis, Russian spring-summer, *1
Encephalomyelitis, experimental allergic, during and following cortone acetate treatment, *373
Encephalopathy produced by extracts of eosinophils and bone marrow, *349
Eosinophils and bone marrow, encephalopathy produced by extracts of, *349
Epstein, Joseph Allan, coaretation of the walls of the lateral angles of the lateral cerebral ventricles: a comparative anatomical study, *302
, see Globus, Joseph H., *107
Errata, Bachs, Agustin, and A. Earl Walker, 403
Esterases and phosphatases of the brain, a histochemical study, *387
Experimental allergic encephalomyelitis during and following cortone acetate treatment, *373
Experimental hydrocephalus, *283
Experimental seizures, induced by metrazol, cortical and subcortical electrical activity in, *262

FARMER, R. A., and Yaskin, H. E., T88
Feigin, Irwin, and Abner Wolf, artifacts in the histochemical localization of alkaline phosphatase and other enzymes, T93
Feiring, Emanuel H., Leo M. Davidoff, and Harry M. Zimmerman, primary carcinoma of the pituitary, *205
Ferraro, Armando, Joseph H. Globus, *i
, and Leon Roizin, experimental allergic encephalomyelitis during and following cortone acetate treatment, *373
Fibrous tissue, the origin of, in meningiomata, *194
Foley, Joseph M., see Meyer, John S., *349
Forgrave, P. R., see Starzl, T. E., *262
Freed, Charles G., see Dobos, E. I., *232
Freeman, Walter, D89, D92
Functional significance of the meningeal arterial anastomoses of the human brain, and anatomy, *132

GASSERIAN ganglion, meningioma of the, *244
Gene, mutant, "trembler" in the house mouse, neurological actions caused by, *64
Glioma associated with hypophyseal chromophobe adenoma, *224
Globus, Joseph H., obituary, *i
, and Reuben M. Cares, epithelioma, *311
, and Joseph A. Epstein, massive cerebral hemorrhage: spontaneous and experimentally induced, *107
Gomori, G., and R. D. Chessick, esterases and phosphatases of the brain, a histochemical study, *387

HALPERN, L., and E. Peyser, the effect of various convulsive procedures on the cranial vessels of the dog angiographically visualized, *277
Hemorrhage, cerebral, in hyperergic angiitis, *24
Hemorrhage, massive cerebral: spontaneous and experimentally induced, *107
Higgins, George H., see Jervis, G. A., *1
Hiller, Frederick, cerebral hemorrhage in hyperergic angiitis, *24
Histochemical studies of active carbonyl groups (protolipids) in brains with multiple sclerosis, *293
Horsey, William J., the effect of acute alcoholic intoxication on the blood-brain barrier, *368
Human brain, the anatomy and functional significance of the meningeal arterial anastomoses, of the, *132
Hydrocephalus, experimental, *283
Hyperergic angiitis, cerebral hemorrhage in, *24
Hypoxemia and oligemia, selective neuronal necrosis and its topistic patterns, in, *249

INACTIVATION of voluntary motor function following rhizotomy, *83
Intracisternal injection of bacitracin in dogs, *73
Intracranial sarcomas, *41
Intracranial tumors, multiple: glioma associated with hypophyseal chromophobe adenoma, a report of two cases, *224

JERVIS, George A., and George H. Higgins, Russian spring-summer encephalitis, (clinico-pathologic report of a case in the human), *1

KLÜVER, Heinrich, and Elizabeth Barrera, a method for the combined staining of cells and fibers in the nervous system, *400

LARA, D. E., see Erna Christensen, *41
Lassek, A. M., inactivation of voluntary motor function following rhizotomy, *83
Lateral cerebral ventricles, coarctation of the walls of the lateral angles of, *302
Leptomeninges, primary sarcoma of the, report of three cases, *186
Lewis, Revis C., and Swank, Roy L., effect of cerebral microembolism of the perivascular neuroglia, *57
Lin, Ching Tung, and Gustav Selbach, primary sarcoma of the leptomeninges, report of three cases, *186
Liver-tissue changes in schizophrenia, brief critical note, *397

MADUROMYCOSIS of the central nervous system, *158
Malamud, N., see Wise, B. L., *224
Massive cerebral hemorrhage: spontaneous and experimentally induced, *107
Meleney, Frank L., see Teng, P., *73
Meningeal arterial anastomoses of the human brain, anatomy and functional significance of, *132
Meningioma of the gasserian ganglion, a case report, *244
Meningiomata, the origin of fibrous tissue in, *194
Method for the combined staining of cells and fibers in the nervous system, *400
Metrazol, cortical and subcortical electrical activity in experimental seizures, induced by, *262
Meyer, John S., and Joseph M. Foley, the encephalopathy produced by extracts of eosinophils and bone marrow, *349
Microembolism, cerebral, effect of, on the perivascular neuroglia, *57
Moore, Matthew, [D]89
Motor function, voluntary, following rhizotomy, inactivation of, *83
Mouse, house, neurological actions caused by the mutant gene "trembler", in the, *64
Multilocular encephalomalacia with cavity formation in infants, [T]88
Multiple intracranial tumors; glioma associated with hypophyseal chromophobe adenoma, a report of two cases, *224
Multiple sclerosis, histochemical studies of active carbonyl groups (proteolipids) in brains, with, *293
Mutant gene "trembler" in the house mouse, neurological actions caused by, *64
Myelin sheath stain for paraffin or celloidin sections, *201

NECROSIS, selective neuronal, and its topistic patterns in hypoxemia and oligemia, *249
Nervous system, central, maduromycosis of, *158
Neuroglia, perivascular, effect of cerebral microembolism, on the, *57
Neurological actions caused by the mutant gene "trembler" in the house mouse (mus musculus, L.): an investigation, *64
Neuropathologists, annual meeting of American Association of, [T]88
Neuroepithelioma, *311
Neuronal necrosis, selective, and its topistic patterns in hypoxemia and oligemia, *249
Niemer, W. T., see Starzl, T. E., *262

OLIGEMIA and hypoxemia, selective neuronal necrosis and its topistic patterns in, *249

PEYSER, E., see Halpern, L., *277
Phosphatases and esterases of the brain, *387
Pituitary, primary carcinoma of the, *205
Pressure, atrophy of cerebellum, following, *11
Primary carcinoma of the pituitary, *205

RABIES, human, a case report with necropsy studies wherein brain and salivary gland yielded virus: notes on the viral tissue distribution, *169
Raskin, Naomi, meningioma of the gasserian ganglion, a case, *244
, see Ashbel, Rivka, *293
Riese, W., the cerebral cortex of two prominent scientists in advanced age, [T]92
Riggs, Helena E., [D]90
Rhizotomy, inactivation of voluntary motor function, following, *83
Roizin, Leon, see Ferraro, Armando, *373
Russian spring-summer encephalitis (clinico-pathologic report of a case in the human), *1

SARCOMA, primary, of the leptomeninges. report of three cases, *186
Sarcomas, intracranial, *41
Scharenberg, K., atrophy of cerebellum following pressure, a study with silver-carbonate, *11
, degeneration, regeneration and readjustment in the human brain, [T]90
Scheidegger, S., liver-tissue changes in schizophrenia, brief critical note, *397
Schizophrenia, liver-tissue changes in, *397
Scholz, W., elective neuronal necrosis and its topistic patterns in hypoxemia and oligemia, *249
Schwarz, Henry P., Helena Riggs, Charles F. Glick, and John M. McGarth, spectroscopic findings in fetal and adult brains (rats), [T]90
Selbach, Gustav, see Liu, Ching Tung, *186
Selective neuronal necrosis and its topistic patterns in hypoxemia and oligemia, *249
Silver-carbonate, a study with, atrophy of cerebellum following pressure, *11

Spectroscopic findings in fetal and adult brains (rats), [T]90
Spiegel-Adolf, M., C. W. Umlauf, and E. G. Szekely, effects of convulsions induced by various types of electric stimulation upon the cerebrospinal fluid, *363
Stain, a myelin sheath, for paraffin or celloidin sections, *201
Staining, combined, of cells and fibers in the nervous system, method for, *400
Starzl, T. E., W. T. Niemer, Michelle Dell, and P. R. Forgrave, cortical and subcortical electrical activity in experimental seizures induced by metrazol, *262
Stevenson, Lewis D., see Berntsen, Carl A., Jr., *169
Subcortical and cortical electrical activity in experimental seizures induced by metrazol, *262
Swank, Roy L., see Lewis, Revis C., *57
Szekely, E. G., see Spiegel-Adolf, M., *363

TENG, P., Frank L. Meleny, David, Cowen, and Abner Wolf, intracisternal injection of bacitracin in dogs, *73
Third ventricle, an intrinsic tumor of the, *232
Tissue, liver, changes in schizophrenia, *397
Tumor, an intrinsic, of the third ventricle, *232

UMLAUF, C. W., see Spiegel-Adolf, M., *363

VANDER EECKEN, Henry M., and Raymond D. Adams, the anatomy and functional significance of the meningeal arterial anastomoses of the human brain, *132
Ventricles, lateral cerebral, coarctation of the walls of the lateral angles of, *302
Viral tissue distribution, notes on, human rabies, a case report with necropsy studies wherein brain and salivary gland yielded virus, *169

WALKER, A. Earl, see Bachs, Agustin, *283, [D]291
Weil, Arthur, [D]290, 403
Wise, B. L., N. Malamud, and E. B. Boldrey, multiple intracranial tumors: glioma associated with hypophyseal chromophobe adenoma, a report of two cases, *224
Wolf, Abner, [D]90, [T]93, [D]94
, see Teng, P., *73
, see Aronson, Stanley M., *158
Wolman, Lionel, the origin of fibrous tissue in meningiomata, *194

YASKIN, H. E., [T]88

ZIMMERMAN, Harry M., see Feiring, Emanuel H., *205
